# GU10 Spotlight Instruction Manual

CODE REF.: BL1

CODE REF.: BL2

CODE REF.: BL3

CODE REF.: BL4

PLEASE READ THESE INSTRUCTIONS BEFORE INSTALLING YOUR NEW FITTING. IF IN ANY DOUBT, PLEASE CONSULT A QUALITIFIED ELECTRICAN.

IMPORTANT:

- Switch off the mains before commencing installation and remove the appropriate circuit fuse.
- Suitable for indoor use only.
- This product is only suitable for use in living areas (not for areas constantly subject to moisture).
- We do not recommend fitting spotlights in bathrooms (due to the risk form broken glass if a blub breaks)
- This product is suitable for installation on surfaces with normal flammability, e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surface such as pipes or cables.
- Before making fixing hole(s), check that there are no obstructions hidden beneath the mounting surface such as pipes or cables.
- The chosen location of your new fitting should allow for the product to be securely mounted and safely connected to the mains supply (lighting circuit)
- The lamp must be positioned so that there is at least 0.5m (500mm) between the bulb and any illuminated surface. Spotlights should be positioned well away form curtains and beds to ensure this distance is maintained.
- Do not attach to surfaces which are damp, freshly painted or otherwise electrically conductive(e.g. metallic surfaces).

INSTALLATION:

1) Choose the location for your new spotlight according to the conditions listed opposite.
2) Loosen the screws on either side of the back of the fitting and turn the fixing strap clockwise and remove it.
3) Using the fixing strap as a template, mark the position of the fixing holes on your mounting surface. If you are mounting your spotlight on a wall, use a spirit level to ensure that the fitting is level (if required).
4) Secure the fixing bracket to the wall using the fixing s supplied. If the fixings supplied are not appropriate to your installation, select suitable alternatives. Take care not to trap your supply wire.
5) Make the electrical connections according to the colour code opposite.
6) Offer the fitting to the fixing strap, turn into position and tighten the screws. Take care not to trap any wires.
7) Fit the lamp (supplied)
8) Restore the power and switch on.
