

Product Name: Double Door Sensor Switch

Product description: This Door Sensor Switch is an exclusively design for Class III insulation appliance based on the application of IR sensor switch.

Function description: As either door opens the light switch on, and when both doors close the light switch off.

Specifications:

input voltage	DC12V	DC24V
output voltage	DC12V	DC24V
output current	3A max.	3A max.
Resting current	6mA	6mA
working temperature	-20~+45°C	-20~+45°C
detection range	4~20cm	4~20cm
Maximum Load	36W	72W
