5W ST64, Dimmable decorative LED filament lamps with gold antique coating

The KTC Dimmable LED Antique Filament lamp has a special coating with a golden finish that shifts the light to a warmer colour temperature of 2200K giving an antique appearance and creating a warm and cosy living space. It is also highly functional and efficient, offering huge energy savings over filament lamps without compromising on brightness. The lamps can quickly replace filament products in domestic and hospitality lighting applications, and once in place rapid payback is achieved.
