- Sophisticated and elegant design • Exclusive marble, glass and brushed brass
- Soft, diffused light through the opalescent glass shade

Glossy is the epitome of tasteful and sophisticated design. Danish designer Maria Berntsen has created a floor lamp that oozes Nordic minimalism, where the combination of exclusive materials such as marble, brushed brass and opal white glass contributes to an incredibly elegant design. Glossy is named after the shiny surface of the opal white glass, which lets a soft and comfortable light shine through.

Marble is a unique natural material and therefore lines, colours and patterns may vary from lamp to lamp. This is a part of the charm of working with natural materials.
