

# Lets Konnekt

# KonnektIT

Introducing KonnektIT, an innovative new take on the standard connection box.

This clever little box offers IP20 protection, cable retention, easy closing lid and comes with a range of different connectors including WAGO 221 and WAGO Inline.

Time to throw away your old connection box and KonnektIT!

IP20 Protection

Cable Retention

External Lugs

Maintenance Free BS5733\*

Polypropylene

100 x 52 x 35 mm

## Cable Retention

The KonnektIT offers cable retention through its unique entry gates.

These entry gates provide pressure to the cable ensuring a tight grip and superior retention for maximum protection.

## WAGO Inline Connectors

The KonnektIT has been designed to work with WAGO's new inline lever connectors.

The connectors simply click into place on the inside of the lid offering a clean professional finish to your installation.

## WAGO 221 Connectors

As well as the new WAGO Inline connectors, the KonnektIT can also house WAGO 221's series in 2, 3 or 5 way options.

The connectors simply click into the inner side walls and offer a secure, tidy and professional finish.

## Easy Closing Lid

The easy closing lid is quick and simple to use ensuring your connections stay well protected.

A tool or screwdriver should be used when opening.

\*Maintenance Free BS5733 only achieved when using with WAGO 221-413 and 221-2411 terminals.

# Variants

**KonnektIT 204 CL**

10112454

Terminal: empty.

**KonnektIT 204 WH**
