

Wiring Instructions for LyvEco IP44 Oval Bulkhead Fitting Model 952

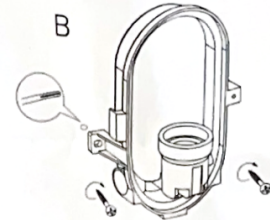

The installation of this product must be carried out by a competent person, or a Qualified Electrician

- 1) Ensure all existing wiring you will be working with has been disconnected from the mains. (Fig A)

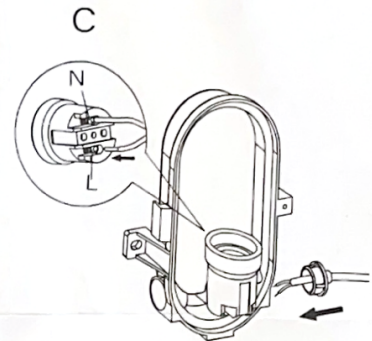

- 2) Remove cage and glass cover.

- 3) Fix the bulkhead to the wall, or other non-combustible surface in a suitable position. (Fig B)

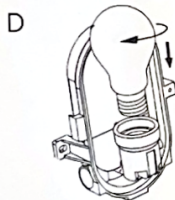

- 4) Decide on a suitable cable aperture position, and knock a hole through the thin plastic part on the fitting. After puncturing the supplied rubber grommet to a suitable size for the cable being used, fit in the hole. Pass the connecting wire through the grommet into the fitting. (Fig C)

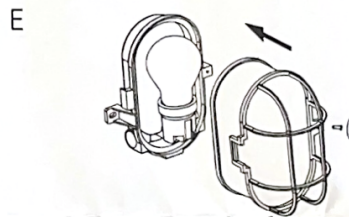

- 5) Strip the wires and connect to the relevant terminals:- **Brown or Red to L, Blue or Black to N**, and tighten securely. (Fig C)

- 6) Insert lamp. (Fig D)

- 7) Re-fit glass cover and cage. (Fig E)

- 8) Switch on. (Fig F)

Specification:- 240V

Lamp:- 9W LED GLS(not supplied), otherwise up to MAX 60W incandescent

Produced for:- LyvEco, Lyden House, South Road, Harlow, Essex CM20 2BS
